

1. Peanut butter and Jelly sandwich time:

Pull out two slices of bread — — —>Spread peanut butter one slice and Jelly on the other
— — —>Smush peanut-butter onto the jelly squarely.

2. “Say Hi” If the Say Hi never runs, trace the steps backwards from this point until we find the last steps that worked properly. Then we know the issue is in a step that follows.

3. User Name input<— — User button click,<— — Say Hi <— — — Stop at the step that is working and move to the next step that follows.

4. Create a problem solving example of every day life: Moving my car around to avoid the side of the street that will be get street cleaned to avoid ticket/tow: Read all signs before parking — — —>Recall what time a particular street has parking restrictions — —>Park the vehicle or move the vehicle wisely.
